Re: Approval of Final Site-Specific Plans for Remedial Design
East Troy Contaminated Aquifer Site, Troy, Ohio

Dear Mr. Mastrolonardo:

The U.S. Environmental Protection Agency has reviewed the *Final Quality Assurance Project Plan, Revision 1, Final Site Management Plan, Final Data Management Plan and Final Waste Management Plan*, collectively referred to as “site-specific plans” dated September 9, 2021, for the East Troy Contaminated Aquifer Site in Troy, Ohio. The above site-specific plans were submitted as part of the Remedial Design being conducted at the Site. EPA also reviewed the Health and Safety Plan, dated June 4, 202, but does not formally approve this document.

Based upon our review, EPA approves the above site-specific plans. If you have any questions, please contact me at (312) 886-6151 or by e-mail at kolak.shari@epa.gov.

Sincerely,

Shari Kolak

Shari Kolak
